DISCUSSION QUESTIONS

1. How do you look at the warehouse illustration? Do you see that you are in a warehouse, or do you feel like you have stepped out somewhat?
2. Are you any more like Christ now than you were at this time last year?
3. What part of your relationship with Christ do you most feel like you are childlike? Any place where you haven't really matured in the way you would like?
4. When people aren't making progress in ways you know is important, do you find it easy or difficult to have patience with that person? Do you have more patience with others in spiritual matters or in earthly situations?
5. How patient are you with yourself when you look at your spiritual progress over the years? When you see yourself continually falling into the same sin, or same habits? Are you more patient with yourself or with others?
6. What does it look like for you to settle for spiritual immaturity? When you believe, but you don't see the changes you desire? What are those areas of your lives where you see this and what can you do to lean into them?
